

SAFETY NOTICE

TO ALL BOAT USERS

Learn how to stay safe
on the water during the
2023 solar eclipse event

Increased water traffic is expected during the 2023 solar eclipse event, taking place on Thursday 20 April, so it's important that recreational craft skippers familiarise themselves with port operations.

With large ships entering and leaving port waters, it's up to you to ensure you and your passengers remain safe.

You **MUST** stay well clear of the shipping channel and large ships, and only cross the channel when safe to do so.

**Remember, you're the skipper,
and you're responsible.**

BOATING SAFETY ZONES

PORT OF ASHBURTON

Recreational boat users must adhere to the boating safety exclusion zones and stay well clear of the shipping channel.
